28. Description of Change: (use additional sheets if necessary) Dominique Joseph and Ken Simmons are new members of the DCE IPT group and as such need the ability to perform certain DCE and Unix related administrative functions on the "testcell" that can only be accomplished with "sudo" privileges.						
29. Proposed Solution: (use additional sheets if necessary) Set Dominique and Ken up with the same "sudo" ability to perform DCE functions as Debra Davis and Darryl Washington. Particularly, it will allow them to install, configure and maintain DCE and it's related activities for the Testcell. This will be beneficial when they need to act in an official On-call capacity. The testcell is comprised of the following machines: rootbeer, godzilla, edsel, mohawk, astoria, and yakusaka.						
30. Alternate Solution: (use additional sheets if necessary) None						
31. Consequences if Change(s) are not approved: (use additional sheets if necessary) This will effect their performance with the group and impeded the DCE training.
